

Jinkies - Open Issues

60 issues sorted by priority

Priority	#	Title	Labels
P1	4	Lint and tests are not actually executed in the build workflow	<i>bug, ci</i>
P1	10	Replace bare except in feed poller with specific exception types	<i>bug, feed-poller</i>
P1	14	Single-instance lock has a TOCTOU race condition	<i>bug, app</i>
P1	15	Entry ID collision: entries without id/link all get empty-string key	<i>bug, feed-poller</i>
P1	26	_read_json crashes on corrupted JSON - no JSONDecodeError handling	<i>bug</i>
P1	27	FeedPoller.update_feeds replaces feed list mid-iteration - thread safety issue	<i>bug, feed-poller</i>
P1	34	QDesktopServices.openUrl has no URL scheme validation - javascript:/file:/data: links possible	<i>security, dashboard</i>
P1	35	OPML import does not validate xmlUrl scheme - file:// URLs pass through	<i>security</i>
P1	36	feedparser.parse (non-auth path) has no timeout - can hang indefinitely	<i>bug, feed-poller</i>
P1	42	OPML import uses stdlib xml.etree - vulnerable to XXE attacks	<i>security</i>
P1	52	CI: Qt tests need virtual display (QT_QPA_PLATFORM=offscreen or xvfb)	<i>ci</i>
P1	56	Add LICENSE file to the repository	<i>documentation</i>
P2	8	Feed poller should use exponential backoff for transient network failures	<i>enhancement, feed-poller</i>
P2	9	Validate feed URL before saving to config	<i>enhancement, feed-poller, settings</i>
P2	16	Seen state not persisted to disk on entry click	<i>bug, dashboard</i>
P2	18	state.json written non-atomically - can corrupt on crash	<i>bug, settings</i>
P2	28	No confirmation dialog before removing a feed	<i>enhancement, ui</i>
P2	29	_on_remove_feed reaches into dashboard private widget - broken encapsulation	<i>bug, dashboard</i>
P2	30	SettingsDialog._import_feeds silently swallows ValueError	<i>bug, settings</i>
P2	31	Dashboard entries not persisted - empty dashboard on every restart	<i>enhancement, dashboard</i>
P2	38	App can exit uncleanly if poller is blocked in network request during shutdown	<i>bug, app</i>
P2	39	reset_daily_stats is defined but never called - daily counters never reset	<i>bug, dashboard</i>
P2	40	AppConfig.from_dict does not validate notification_style or poll_interval_secs	<i>bug</i>
P2	44	Dashboard entries list grows unboundedly in memory	<i>enhancement, dashboard</i>
P2	45	seen_ids set grows unboundedly in memory and on disk	<i>enhancement</i>

Jinkies - Open Issues

60 issues sorted by priority

Priority	#	Title	Labels
P2	46	Feed poller does not use ETag/Last-Modified - full download every cycle	enhancement, feed-poller
P2	47	Add tests for SettingsDialog	testing, settings
P2	48	Add tests for authenticated feed fetching (urllib path)	testing, feed-poller
P2	53	Windows and macOS builds skip lint and tests entirely	ci
P2	54	macOS build produces bare binary instead of .app bundle in DMG	bug, ci
P2	55	.gitignore excludes all *.lock files - may prevent uv.lock from being committed	chore
P2	58	Add SECURITY.md with responsible disclosure process	documentation, security
P2	60	Linux .desktop entry missing Icon= and StartupWMClass= fields	bug, ui
P2	61	Add Windows installer (NSIS/Inno Setup) instead of raw .exe	enhancement, Windows
P2	66	FeedEditDialog accepts blank name and URL with no validation	bug, settings
P2	69	Error notifications not rate-limited - fires every poll cycle for broken feeds	enhancement, app
P3	1	Windows is missing a system tray icon	bug, good first issue, Windows
P3	2	Windows uses default pyinstaller app icon	good first issue, Windows, visual
P3	6	JinkiesApp (app.py) has zero test coverage	enhancement, testing
P3	7	Add integration tests for the full polling -> notification pipeline	enhancement, testing
P3	11	Entry table needs pagination for feeds with large entry counts	enhancement, dashboard, ui
P3	12	Add bulk mark-as-seen action to the dashboard	enhancement, dashboard, ui
P3	13	Add entry content search and filter to the dashboard	enhancement, dashboard, ui
P3	32	Poll interval change only takes effect after current sleep finishes	bug, feed-poller
P3	33	NotificationDialog._active_notifications is a shared class-level mutable list	bug
P3	37	feed.last_poll_time mutated from poller thread without synchronization	bug, feed-poller
P3	41	Feed.sound_file model field exists but is never used by AudioPlayer	enhancement
P3	43	_refresh_table rebuilds entire table on every poll - O(n) per cycle	enhancement, dashboard
P3	49	Add tests for get_config_dir platform-specific paths	testing
P3	50	Add tests for feed_import edge cases (_build_feed_url, _extract_job_feeds)	testing

Jinkies - Open Issues

60 issues sorted by priority

Priority	#	Title	Labels
P3	51	Add tests for NotificationDialog positioning and lifecycle	<i>testing</i>
P3	57	Add CHANGELOG.md for structured release notes	<i>documentation</i>
P3	59	README missing config.json structure documentation	<i>documentation</i>
P3	62	Add an About dialog showing version, license, and links	<i>enhancement, ui</i>
P3	63	Add keyboard shortcuts for toolbar and tray actions	<i>enhancement, ui</i>
P3	64	Add tooltips to toolbar actions for accessibility	<i>enhancement, ui</i>
P3	65	Remove dead code: get_last_poll_display method	<i>good first issue, chore</i>
P3	67	Remove deprecated block_cipher from jinkies.spec	<i>good first issue, chore</i>
P3	68	Expose __version__ at runtime from pyproject.toml	<i>enhancement, good first issue</i>
P3	70	Move inline imports in SettingsDialog to module top level	<i>good first issue, chore</i>
